Section 589(1) of the Municipal Act provides that where a majority of the owners representing at least one-half of the assessed value of the land liable to be specially charged petition the Council not to proceed with the work, the work shall not be undertaken. As a majority of the owners under Project Numbers 4, 5, 7, 8, 15, 23 and 24 have signified their objection, Council is therefore estopped from proceeding with these works.

* In the case of this project (Albert Street - Gamma Avenue to Delta Avenue), we received one further objection on September 8th. The deadline for receipt of objections was September 7th. However, this one late objection was dated number of objections to defeat this particular project.

**In the case of this project (12th Avenue - Grandview-Douglas Highway to Mary Avenue), the petition opposing this proposed work contained 11 signatures. Two of them were unacceptable. One was signed by a party on behalf of an Estate. In order for us to accept this signature, we must be in possession of some evidence indicating that the signatory had the authority as a Trustee of a Church group. -Again, we must have proof that this person had the authority to sign on behalf of the Church. If Council was to accept these two signatures the petition would then be sufficient in number to defeat the project. However, the land assessment of all 11 petitioners would be less than the .50% required.

: -

The Manager pointed out that items 4, 5, 7, 6, 15, 23 and 24 have been defeated and that projects 6 and 10 require special consideration by Council, for the reasons given in the report of the Clerk.

The Manager also submitted an amended cost report of the Municipal Engineer covering the surviving works.
