6. J. B. Wilson & T. A. Allan with reference to gravel taken from North Road.

Resolved that an account be forwarded for \$10. cost of gravel taken.

The Engineer's report was received as follows:-

Municipal Hall, Edmonds, B. C.

Nov. 17th, 1910.

To the Reeve & Councillors,

Municipality of Burnaby.

Gentlemen:-

I beg to submit the following report.

Douglas Road & Vancouver Road.

As there is no money available for further work on these roads it will be necessary to close down the works for the year. Meantime the operations have been confined to collecting rock for these two roads. This rock, I suppose, can be reckoned as an asset.

I have given instructions to close the camp at Still Creek Hill at the end of the month and propose cutting out Lee's gang as soon as the clearing for the sidewalks on the Douglas Road has been completed. As there is no more work meantime for the Engineer on the Road Roller I intend laying him off.

In order to find work for the settlers now working on the Vancouver Road, the clearing for the sidewalks to be laid early next year could be done, provided the necessary funds can be arranged for.

Gilpin Road.

A serious error has been discovered in the survey of the Gilpin Road through the centre of District Lot 83. This portion of the road ~~x~~ should be straight from the Royal Oak Road to where it joins the Clayton Road. But according to the stakes on the ground the road jogs from Block 10 to Block 12 and thence runs straight to the Clayton Road but 33 feet south of where the road should be. As the contractors for the slashing had a large gang at work at different points in this road, the error was not discovered until the work was almost completed. The plan was subdivided in

July 1909 by Noel Humphreys, who should be communicated with regarding the discrepancy.

PLANT

Enclosed is a statement showing the expenditure on plant & tools up till the end of October.

I am, Gentlemen,

Your obedient servant,

Municipal Engineer.

---

Resolved that same be received and filed for reference and that Engineer communicate with Mr. Noel Humphreys & Messrs. Ross & Shaw with reference to discrepancy in survey of D. L. 83.

minute 883. Resolved that tenders be called for 5 chains of Road.

Resolved that minute authorising cost of clearing boulevard out of general revenue be rescinded and that cost of same be charged to By-Law.

Resolved that improvement of Prairie Avenue be referred to the Engineer.

---
