Municipal Hall,

Edmonds,

Sept. 29th, 1910.

His Worship the Reeve
and Councillors,
Municipality of Burnaby.

Gentlemen:-

I beg to respectfully submit the accompanying Reports on the wooden sidewalks proposed to be laid throughout the Municipality.

The total amount (\$61,891.00) provides only for the supplying of the material and the laying of the sidewalks on roughly graded ground, and as I am of the opinion that the cost of the necessary clearing of the Boulevards should be borne out of the "General Revenue." In the event of the cost of clearing being charged to By-Law Expenditure, this would increase the cost of the sidewalks by about \$23,000. (figuring on a basis of \$300. per mile) making the total amount about \$84,000.

The above estimate is based on the work being done by Contract but if the Council were supplying the lumber (which they could get somewhat cheaper if ordered in large quantities at a special price arranged for, say, one year,) the work could be done much cheaper. I understand that South Vancouver Council has an agreement for the supplying of lumber for sidewalks on the ground at the rate of \$16.00 per 1000 feet for the current year.

I am, Gentlemen,

Your obedient servant,

Fred L. Macpherson

Municipal Engineer.
