Mr. Bouck addressed the Council contending that his clients property was already served by a line which also serves property further along the street and that the installation of an 8" water main at the expense of his client would be of benefit to some five other consumers at no cost to them. The Manager submitted report advising that the line serving the houses referred to by Mr. Bouck was a 3/4" line apparently laid by the owners of the properties served on their own land and that in the opinion of the Engineer this line was not a proper line to take any further services from. The Engineer further reported that the sum being asked from the Industrial Properties Ltd. was the cost of

installing a 6" line and Corporation assuming the additional cost of actually installing an 8" line.

REPORT OF TRAFFIC AND TRAFFIC SAFETY COMMITTEE:

Your Committee met on September 23rd and dealt with the following items:

1. Improvements to Grandview - Royal Oak - Sprott area.

Council will recall its approval approximately one month ago of a number of improvements to the above area involving the relocation of a Westbound bus stop on the Highway and construction of a gravel sidewalk on the West side of the Highway in the vicinity of Forest Lawn Cemetery together with the installation of suitable signs leading to a crosswalk at Hardwick Street. Following inspection of the area, overtures had been made to the Forest Lawn Development Limited to close a short stretch of road traversing a triangular shaped property bounded by the Highway, Royal Oak Avenue and Sprott Street to which the Company had agreed. However, the Company disagreed with the aforementioned sidewalk - crosswalk - bus stop arrangement and suggested the installation of a crosswalk with usual signing at the existing bus stop.

The Committee recommended that the counter proposal of Forest Lawn Development Limited be rejected.

Moved by Councillor Jamieson, Seconded by Councillor McLean: "That the recommendation of the Committee be adopted."

CARRIED UNANIMOUSLY.

(2) Improvements in Westridge Area.

The Committee reviewed a previous report made for improvements to this area involving the installation of sidewalks in the area. The Committee now

REPORT OF TRAFFIC AND TRAFFIC SAFETY COMMITTEE (CONTINUED)

submitted further recommendations approving in principle the entire proposals originally outlined and also that a sidewalk be constructed on the North side of Hastings Street between Clare Avenue and the Park Reserve West of Inlet Drive. Prior to such work being undertaken it was considered desirable that portions of four lots be acquired for future widening of Hastings Street. The Committee further recommended that as a second stage channelization of traffic should be undertaken between Cliffe Avenue and the old Barnet Road at an approximate cost of \$2,100.00. The final stage of the programme suggested included curbing of traffic islands to be installed in conjunction with the aforementioned channelization at an estimated cost of \$800.00. It was also suggested the Parks Board be requested to maintain these Islands.

Moved by Councillor Jamieson, Seconded by Councillor Brown: "That the report of the Committee be approved in principle and the suggestions contained therein be referred to the Municipal Manager for a report as to the costs involved and other aspects related thereto."

CARRIED UNANIMOUSLY

3. Advisability of prohibiting Parking in Cul-de-Sacs.

Your Committee discussed this matter to some length and feel that since all cul-de-sacs are not alike in terms of road width and topography, as well as other characteristics, that a possible hardship might be worked on the property owners affected in some cases if an overall policy was instituted covering the parking of vehicles at the end of cul-de-sacs.

As a result, we would recommend that each cul-de-sac be dealt with individually. Recommendations will be made to Council in each case where a parking problem exists and where remedial action is considered necessary.

Moved by Councillor Seifner, Seconded by Councillor McLean: "That the recommendation of the Committee be adopted."

CARRIED UNANIMOUSLY

4. Standardization of Signs.

The Committee reported having met with representatives from surrounding Municipalities to discuss standardization of traffic signs throughout the Lower Mainland area and reported that the meeting had recorded full accord with the object of standardization and unanimously supported the motion to subscribe to the principle of uniformity of traffic signs.

Moved by Councillor Cafferky, Seconded by Councillor Mather: "That the report of the Committee be received and that the Committee be commended on the presentation."

CARRIED UNANIMOUSLY

5. Safety Campaign.

The Committee outlined preparations made for the forthcoming Safety Campaign and requested Council approval of the following:

- (2) Preparation of 12,000 "Message -- to Citizens of Buenaby" at an estimated cost of \$45.00.
- (3) Preparation of 30,000 Pledge Cards at a cost of approximately \$115.00.
- (4) Preparation of 10,000 folders on the Traffic Accident Problem. This will cost \$213.00.

The Committee requested an opportunity to meet the Council for the purpose of familiarizing all concerned with the details of the Campaign.

Moved by Councillor Cafferky, Seconded by Councillor McLean: "That the expenditures listed above be approved."

CARRIED UNANIMOUSLY

It was agreed that the Proclamation Ceremony take place on October 14th at 7:00 p.m. following which the Council will meet with the Traffic and Traffic Safety Committee to discuss details of the Safety Campaign.
