

ITEM 5
MANAGER'S REPORT NO. 57
COUNCIL MEETING Sept. 13/71

5. RE: Road Paving Extension of 4000 Block Carson Street

Appearing as a communication on the Agenda for the Council Meeting of September 13, 1971, is a letter dated September 2, 1971, from Mr. Vern Delgatty requesting completion of road paving along Carson Street.

We had hoped to have a report on this subject available for Council's consideration but we have run into some complications regarding a pending subdivision in the area. The subdivider might be required to construct some of the services in this area.

We hope to have a report available for the September 20th meeting.

RECOMMENDATION:

THAT the communication be tabled for one week pending the receipt of a report from the Engineer on the matter.
