

ITEM 3

MANAGER'S REPORT NO. 78

COUNCIL MEETING Dec. 6/71

3. Re: Chevron Canada Ltd. - Sulphur Level of
Gasoline
(Letter from Mr. O. Moysiuk dated
November 25, 1971)
-

Appearing on the Agenda as a communication for the Council Meeting of December 6, 1971, is a letter from the Vice-President of Burnaby S.P.E.C. requesting information in connection with Item 5 Manager's Report 75, November 22, 1971.

We are presently negotiating with the Company on many problems and since this letter is one requesting additional information, it is felt that it should be referred to the Manager for consideration.

RECOMMENDATION:

THAT the letter be referred to the Municipal Manager for study and report.
