

16. Re: Burriss Street Extension

As a result of a brief discussion at the Council Meeting on October 25, 1971, the Planning Director was directed to provide a plan illustrating the road pattern that is proposed to be created as a result of Burriss Street being extended Northward to connect with 6th Street.

The Plan will be placed on display at the Council Meeting of December 6, as it is too large to be reproduced for distribution to Council.

This is for the information of Council.
