

ITEM 11

MANAGER'S REPORT NO. 56

COUNCIL MEETING Sept. 11/72

11. Re: Letter - Mr. Ralph H. Brine - 5651 Malvern Avenue
Request to Acquire Portion of an Unused Road Allowance
(Item 23, Report No. 52, August 28/72)

Council on August 28, 1972, received from Mr. Ralph H. Brine a request to purchase an unused road allowance on Haszard Street between Malvern and Sperling Avenues. The Director of Planning advised that the subdivision and ownership pattern in the area is under review and that a recommendation concerning the matter would be submitted to Council on approximately September 11, 1972.

The Director of Planning has written a letter to B.C. Hydro requesting information on the location of a pole line in the road allowance, and whether the line must be retained or could possibly be relocated to permit this portion of Haszard to be closed and used as a building lot. Council will receive a final report on this matter when a reply to these inquiries is received.

RECOMMENDATION:

THAT a copy of this interim report be sent to Mr. Brine.
