

ITEM 6

MANAGER'S REPORT NO. 28

COUNCIL MEETING Apr. 24/72

6. Re: Petition - K. F. Aikenhead, 7261 Jubilee, and others
Paving of Circular Lane,
7200 Block Jubilee Avenue.
-

Appearing on the Agenda for the April 24, 1972 Council meeting is a petition from Mrs. K. F. Aikenhead and others regarding replacement of topsoil and enclosure of ditches.

The Municipal Engineer advises that when the lane was paved by local improvement two years ago, some of the grass adjacent to the paving on the east side of the park was stripped by a grader in preparing the area for paving. Topsoil will be placed in this section in the immediate future.

There is quite a large drainage ditch running along the west side of the lane situated on the west side of the park area. Enclosure of this ditch will be included in a forthcoming drainage by-law. The enclosure should be completed in 1972 if the necessary by-law is approved. The enclosure will permit elimination of the two ditches except for a shallow depression on the east side which is required for the conveyance of surface water from the park area to a central point.

RECOMMENDATION:

THAT a copy of this report be sent to Mrs. K. F. Aikenhead.
