

ITEM 19

MANAGER'S REPORT NO. 72

COUNCIL MEETING Nov. 6/72

19. Re: Letter from Pamela Olson, 85 Kyle Street
Recycling and Disposal of Waste Material

Appearing on the Agenda for the November 6, 1972 Council Meeting is a letter from Pamela Olson, a representative of the Port Moody Recycling Society, concerning studies on the disposal and recycling of waste material.

The Engineer advises that Mr. K. Kaller, who recently retired from the Engineering Department, completed a Solid Waste Disposal Study which was carried out under the auspices of the Municipality and the Regional District. Further studies concerning the Solid Waste function is being done on a Regional basis by the Regional District. It therefore seems appropriate that the writer's letter and queries be referred to the Regional District for final reply.

We are quite prepared to provide the writer with copies of our study, both the one done initially for Burnaby alone and the later one prepared by Mr. Kaller jointly for Burnaby and the Regional District.

RECOMMENDATIONS:

THAT the writer's inquiries be referred to the Regional District for reply; and

THAT copies of the studies and this report item be sent to Pamela Olson.
