REMARKS: There has been very little unusual criminal activity during June and it is pleasing to report that our crime statistics appear to be quite favourable for this period. There was one robbery of a small corner store committed by a knife wielding youth who stole \$227.00 from the store. This is still under active investigation.

Our new Control Centre equipment is gradually taking shape and our four civilian radio dispatchers appear to be fitting into the operation quite well. Within the next several weeks we hope to have all anticipated changes effected and will be able to realize the expected benefits of the new equipment.
