(Item 24, Report No. 9, February 5, 1973)

Appearing on the Agenda for the February 26, 1973, meeting of Council is a letter dated February 22, 1973, from Mr. Hugh Cooper to the Clerk. Mr. Cooper has requested permission to appear as a delegation on February 26, 1973, to speak in opposition of Rezoning Reference #54/72 which involves a rezoning and proposed lease of park land to accommodate an overhead conveyor for Kask Bros. Ready Mix Concrete.

The Parks and Recreation Commission, following a presentation by Mr. Cooper on February 21, 1973, passed the following motion:

"That some statements made in the presentation by Mr. Cooper be checked out by our staff and included in the report from the Director of Planning as regards Burrard Inlet."

In summary, the Commission decided that it would take no action on the Kask Bros. application until such time that the Commission receives a comprehensive planning report on the types of recreational activities that should be considered for the Burrard Inlet area.

This is for the information of Council.
