REMARKS:

Two complaints of rape are under investigation. In one case at least, it appears doubtful whether the assailant could be identified.

Two separate incidents of robbery were reported which involved purse snatching. In one instance a total of \$13.00 was lost but no identification, and in the second instance \$120.00 was reported to have been in the purse along with identification, personal papers, etc.

During the month, a major "theft ring" was uncovered which had centred around thefts from warehouses including major appliances, building materials, rugs, etc. A number of arrests were made and the cases are presently before the courts.

There were no traffic fatalities during the month. The traffic pattern is considered average in comparison to other months. To date this year there has been relatively little change from 1973 insofar as Break-ins and Auto thefts are concerned.
