RE: QUOTATIONS FOR DUCTILE IRON WATER PIPE

A requisition was received from the Engineering Department for the supply of 3,000 feet of 8" and 3,000 feet of 6" ductile iron pipe for the 1975 Waterworks program.

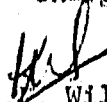

It is customary for this department to issue an invitation for public tender on this quantity of material. However, to my knowledge there are only two suppliers of ductile pipe in the area, Canron Ltd. and Crane Supply Ltd., and they would be the only bidders. I further checked with the Purchasing Agent of the District of Surrey who I noticed had a large display advertisement in two consecutive issues of the local papers for the same material. He confirmed my thinking by stating that only two bids were received from the above mentioned companies.

In order to avoid the expense of advertising a public tender, these two companies were invited to bid on our requirements. A tabulation of the bids received is attached.

The Engineering Department has checked the two bids and concurs with my recommendation.
