

ITEM 1

MANAGER'S REPORT NO. 39

COUNCIL MEETING May 26/75

Re: Animal Control

Council recently inquired about the effectiveness of the ticketing system which provides warning to owners of delinquent dogs, and also, the hours during which patrols are carried out by the S.P.C.A. in the spring and summer months. Following are replies to these inquiries:

1. Violation Tickets

Tickets have not yet been issued because of a problem involving the Regional Crown Prosecutor's office over the related form and the wording of the offence. The matter has been returned to the Municipal Solicitor for further advice.

This matter has been diarized; a report on the system will be submitted to Council approximately three months from the date on which it is implemented.

2. S.P.C.A. Pound Patrols

Evening patrols are conducted between May 1 and August 31 on a schedule of three patrols weekly alternating with two patrols weekly, from 6:00 p.m. to dark.

This is for the information of Council.
