

ITEM 20 (SUPPL.)  
MANAGER'S REPORT NO. 9  
COUNCIL MEETING Feb. 7/77

Re: MARINE WAY

Following is a report from the Director of Planning regarding the stockpiling of material for the construction of Marine way.

The Municipal Engineer concurs with the recommendations in this report.

RECOMMENDATION:

1. THAT the Director of Planning's recommendations be adopted.

\* \* \* \* \*

TO: MUNICIPAL MANAGER  
FROM: DIRECTOR OF PLANNING  
RE: MARINE WAY

Planning Department  
February 4, 1977  
File #08.640(M)

The Planning Department has received the attached correspondence from the Department of Highways concerning the proposed stockpiling of dredged material to be used in the construction of Marine Way.

The Planning Department has reviewed the locations indicated and would recommend site area 1 (circled) which involves municipally owned parcels which would require pre-loading before further servicing of the properties is initiated.

RECOMMENDATION

1. THAT Council concur with the site 1 selection and use of Corporation owned land for the stockpiling of dredged material for Marine Way construction.
2. THAT the Department of Highways forward a more detailed plan showing the specific boundaries of the site to be used for the stockpiling of dredged material.
3. THAT the Department of Highways provide the Municipal Engineer with the necessary technical details regarding height of stockpiling, rates of loading, run off water rates, water channels to be used etc. and an approximate schedule for removal of the dredged material.

  
A. L. Parr  
DIRECTOR OF PLANNING

WSS/dm

The Corporation of the  
District of Burnaby,  
Municipal Hall,  
4945 Canada Way,  
Burnaby, B.C.  
V5G 1M2

Attention: Mr. A. L. Parr,  
Director of Planning

Dear Mr. Parr:

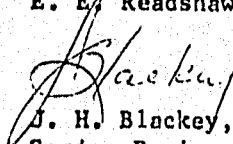

Re: Marine Way

We have attached for your information a print of sheet one  
of our mosaic covering Marine Way.

It is requested that Burnaby give consideration to making  
available, during the construction period, some of their land adjacent  
to the route for stockpiling dredged material from the Fraser River.  
Suggested areas are marked 1 and 2.

It would be appreciated if you could advise in order that  
we can commence negotiations for pumping.

Yours very truly,  
Design and Surveys Branch,  
E. E. Readshaw, Director.

  
J. H. Blackey,  
Senior Design Supervisor.
