Re: MEDICAL HEALTH QUARTERLY REPORT

Following is the report of the Medical Health Officer covering the activities of her Department for the months of January, February and March, 1977.

This is for the information of Council.

Recommendation:

1. THAT the format of the Medical Health Officer's Report be amended to delete the regular submission of statistics with the understanding that such information will be submitted when requested or considered appropriate, and that information in future reports be related to current activities and status on new programs and projects.

QUARTERLY REPORT

M. J. Shelley Municipal Manager

Dear Sir,

I have the pleasure of submitting the Quarterly Report for the Health Department covering the months of January, February and March, 1977.

I would like to propose changing the format of the quarterly report.

I would recommend that we no longer include the statistics unless there is a request for them or unless we have a noteworthy development to bring to your attention. I would also suggest presenting information briefly on current activities, and commenting sometimes on projects which are still in the discussion stage, with the expectation that a more comprehensive report will follow on particular issues when appropriate.

A study has begun on the health needs of seniors, with particular interest in what services, when available, enable senior citizens to remain independent as much as possible. I anticipate this study will take some months to complete. This will also include reviewing the Health Department's responsibilities in the licensing of Community Care Factifies.

Preliminary discussions have taken place and we will be reviewing what services we provide to retarded children and adults.

I am also happy to report that Cliff Chiu, a psychologist with the Health Department since May 1973, has successfully completed the requirements for his Ph.D. in educational psychology.

Respectfully submitted,

S. L. Hemming, M.B., D.P.H., F.R.C.P.(c)
MEDICAL HEALTH OFFICER
