

ITEM	12
MANAGER'S REPORT NO.	20
COUNCIL MEETING	1978 03 13

Re: LETTER FROM THE NORTH FRASER HARBOUR COMMISSION
 OAK STREET WHARF - FOOT OAK STREET SOUTH, VANCOUVER
 CONVERSION OF THE COMMISSION'S BY-LAWS TO THE
 INTERNATIONAL SYSTEM OF UNITS (S.I.)

Appearing on the agenda for the 1978 March 13 meeting of Council is a request from Mr. Kenneth J. McEwan, Port Manager for the North Fraser Harbour Commission, for municipal approval regarding a proposal to convert all sections of the Commission's existing by-laws from the imperial to the metric system of measurement.

The amendments as proposed are related solely to the requirement to have all units expressed in metric, and there is no reason for the Municipality to withhold its approval to allow this to be accomplished.

RECOMMENDATIONS:

1. THAT Council approve the resolution adopted by the North Fraser Harbour Commission on 1978 February 27 relative to amendments which will have the sole effect of converting units of measurement in existing by-laws from imperial to metric equivalents; and
2. THAT the North Fraser Harbour Commission be so advised.
