Planning Department
1978 May 23

TO: MUNICIPAL MANAGER
FROM: DIRECTOR OF PLANNING
RE: BURNABY TRANSPORTATION STUDY TO 1985

On 1978 03 06 Council requested that the demographic information in the 1974 report, "Burnaby Transportation Study to 1985" be updated in order that the Transportation Committee can undertake a review of that report.

The following preliminary forecast of Burnaby Dwelling units and Population data for 1986 by traffic zone is being forwarded to Council as a progress report in the updating of the demographic data for Burnaby.

It should be noted that the difference between the current forecast and the original study data arises largely as reflections in current population trends, changing household size and residential development policies.

With regard to other demographic data headings in the transportation study report such as employment (jobs), labor force, cars, etc. the Planning Department would advise that this information is currently being researched and upon completion will be forwarded to Council at the earliest possible date.

An estimate of the time required to produce the remaining data by traffic zone is not possible at this time because of our dependence upon Census Canada for further data relative to 1976.

This report is for the information of Council.

A. L. Parr
DIRECTOR OF PLANNING

WSS/hf

Attach.

c. c. - Chairman, Transportation Committee
