

ITEM	3
MANAGER'S REPORT NO.	24
COUNCIL MEETING	1979 03 26

RE: CARIBOO ROAD - GAGLARDI WAY INTERCHANGE AT HIGHWAY 1

On 1979 March 05, Council inquired about certain traffic conditions relative to the Cariboo Road - Gaglardi Way Interchange at Highway 1. Following is a report from the Municipal Engineer on this matter.

As noted in the report, the Municipality will be responsible for future costs involving the power and maintenance of the lighting system on municipal roads adjacent to the overpass. A sketch showing the roads in question will be available for viewing in the Chamber on Monday night.

RECOMMENDATION:

1. THAT the report of the Municipal Engineer be received for information purposes.

79 03 14

TO: MUNICIPAL MANAGER  
 FROM: MUNICIPAL ENGINEER  
 SUBJECT: CARIBOO ROAD - GAGLARDI WAY INTERCHANGE AT  
 HIGHWAY 1 - ENQUIRIES, COUNCIL MEETING 1979 MARCH 05.

RECOMMENDATIONS:

1. THAT this report be received for information purposes.

Report

The problem of inadequate lighting at the captioned interchange has been the subject of past correspondence with the Ministry of Transportation, Communications and Highways.

The Ministry in their reply to us dated 1979 02 21, (copy attached), have agreed to finance any improvement to the lighting but have requested us to arrange for its installation. We are now in the process of designing a street lighting system for their approval.

In regard to the future cost of power and maintenance, we would advise that the Cariboo Road legs both to Gaglardi Way and the extension north under the overpass are Municipal roads and are therefore subject to Municipal maintenance.

In addition to the above, we contacted the local office of the Ministry and were informed that they were going to install improved signing to clarify traffic movements within the interchange.

The above is for the information of Council.

Attention: A. Walisser  
District Highways Manager

Dear Sir:

Re: STREET LIGHTING - CARIBOO ROAD AT  
STORMONT AVENUE

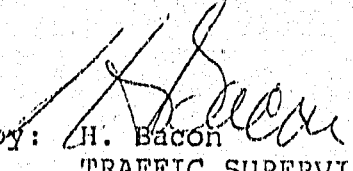

We have noticed, now that the Gagliardi Way/  
Stormont Interchange connection is nearing completion, that  
no provision has been made at the new intersection of Cariboo  
Road and Stormont Avenue for street lighting. We feel that  
street lighting should have been included as an integral part  
of the reconstruction of this intersection. The existing  
lease light located at the old intersection of Cariboo  
Road and Stormont Avenue is inadequate and no poles are  
available to install additional lease lighting.

Enclosed is a copy of our street lighting card file  
for the Cariboo overpass of the Trans Canada Highway showing  
the existing street lights there. The necessary street  
lights required to adequately illuminate the intersection  
of Cariboo/Stormont could be added on to this system as it  
has the capacity for expansion.

Would your Ministry please investigate this matter  
as soon as possible. Thank you.

Yours truly,

E.E. Olson, P. Eng.  
MUNICIPAL ENGINEER
