

R E P O R T
Regular Council Meeting
1980 April 21

THE CORPORATION OF THE DISTRICT OF BURNABY

TO THE MEMBERS OF
THE MUNICIPAL COUNCIL:

Re: Appointments to the Fire Study Advisory Committee

Council on 1980 March 03, in connection with its deliberations on a report regarding the Fire Prevention Control Study and Master Plan, by motion directed that:

"Up to three citizens of Burnaby be placed on the Advisory Committee and further that these appointments be advertised through the local news media."

Five applications were received as the result of an advertisement which appeared in the Columbian on March 11, Burnaby News on March 12 and the Vancouver Sun on March 14.

The technical staff involved with this committee have recommended that the appointment of two (rather than one or three) representatives from the public will give the Committee the optimum level of balance that is desired.

It is therefore recommended that the following two citizens be appointed to serve on the Fire Study Advisory Committee:

1. Mr. A. L. "Les" Francis
3851 Epping Court, Burnaby
2. Mr. Frank L. Mildenhall
4849 Patterson Avenue, Burnaby

It is unfortunate that there is no opportunity to in some way use the skills and knowledge of all the candidates who applied. It is felt, however, that the two who are recommended are well qualified and would provide a good community in-put to the Committee.

Respectfully submitted,

David M. Mercier,
M A Y O R
