

Re: 1981 ANNUAL BUDGET

Attached for the consideration of the Municipal Council is the 1981 Annual Budget.

The letter of transmittal in the front of the Budget provides further details. It should be noted that this budget does not contain the tax levies of the School District, and other taxing authorities, B.C. Assessment Authority excepted.

The 1981-85 Capital Budget is now in the process of being completed. We are attempting to have it available for submission at the meeting of Council on 1981 April 27.

It would be appreciated if Council would keep in mind that both the Operating and Capital Budgets must be adopted by by-law on or before 1981 May 15. The last regular Council meeting date by which the budget by-law may be passed is 1981 May 11. In the ordinary circumstances, three readings would occur on 1981 May 04 and passage on 1981 May 11, or earlier if Council was so disposed.
