RE: 1984 BURNABY HEALTH DEPARTMENT ANNUAL REPORT

---

RECOMMENDATION:

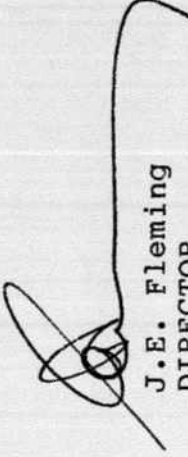

THAT the Health Department's 1984 Community Health Services Annual Report be received for information purposes.

REPORT

Enclosed in Council's envelopes is the Health Department's Community Health Services Annual Report for 1984. One of the major areas of concentration during the year was the introduction of the nurses into the employ of the municipality.

The report this year goes into more detail on the objectives and measures set for the Department. While 1984 was very much a "hold the line" year with respect to service levels, most if not all of the Department's objectives were met.
