RE : **INCLUSION OF TREES IN THE PROPOSED BURNABY HERITAGE RESOURCE INVENTORY**

PURPOSE: To have Council request the Heritage Advisory Committee to include trees in its proposed Burnaby Heritage Resource Inventory.

RECOMMENDATION:

1. THAT the Heritage Advisory Committee be requested to include trees in its proposed Burnaby Heritage Resource Inventory.

REPORT

At its meeting of 1989 October 04, the Parks & Recreation Commission received correspondence from Mr. Steve Mancinelli regarding park concerns. One of Mr. Mancinelli's concerns relates to the preservation of a chestnut tree located on private property which is adjacent to existing parkland.

The Commission is looking into the potential for saving this tree and Mr. Mancinelli has been so advised.

However, in considering this subject, the Commission felt that it would be appropriate to ensure that the question of identifying heritage trees throughout the Municipality is addressed.

Consequently, the Commission would like to suggest to Council that the Heritage Advisory Committee be requested to include trees in its proposed Burnaby Heritage Resource Inventory which typically includes buildings, structures, trees, trails, and significant places.
