

RE: CONTRACT NO. 8919
WESTMINSTER AVENUE BRIDGE REPAIRS AND EMBANKMENT RECONSTRUCTION

MUNICIPAL MANAGER'S RECOMMENDATION:

1. THAT the recommendation of the Director Finance be adopted.

* * * * *

TO: MUNICIPAL MANAGER 1989 October 17

FROM: DIRECTOR FINANCE

SUBJECT: CONTRACT NO. 8919 - WESTMINSTER AVENUE BRIDGE
REPAIRS AND EMBANKMENT RECONSTRUCTION

PURPOSE: To obtain approval to award a contract for bridge repairs
and embankment reconstruction

=====

RECOMMENDATION:

1. THAT a contract be awarded to the lowest bidder, Tehcon Construction Services Ltd., to provide the necessary construction services for bridge repairs and embankment reconstruction at Westminster Avenue for a total cost of \$118,239.00.

REPORT

Seven tenders for the bridge repairs and embankment reconstruction at Westminster Avenue were received by closing time of 3:00 p.m. Friday, 1989 September 08 and were opened by municipal staff in the presence of representatives of the firms bidding. A tabulation of the tenders received is attached (Attachment A).

The work of the contract involves the supply and installation of materials, including all labour, equipment, plant and tools related to the construction services for the Westminster Avenue bridge repairs and embankment reconstruction.

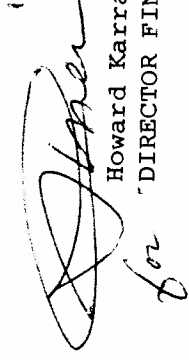

The Director Engineering's estimate for this work is \$123,000.00.

After the tender documents were issued and prior to receipt of tenders, our consultant, Golder Associates, discovered a material alternate to that specified in the tender documents for the embankment reconstruction. This alternate material meets the specifications and an addendum was issued requesting each bidder to include an alternate price for this material. All but one tender included an alternate price. The recommended tender, that of Tehcon Construction Services Ltd., offers this material at a considerable savings.

The recommended bidder, Tehcon Construction Services Ltd., has been in business in the Lower Mainland for the past 10 years. Engineering staff have checked their references and found that on previous projects they were very competent. Engineering staff and our consultant, Golder Associates, are satisfied that they have the necessary resources and expertise to satisfactorily complete the work of this contract.

The funding for this work is provided in the 1989 Capital Budget under Land Assembly and Development.

The Director Engineering and our consultant, Golder Associates, concur with the above recommendation.

Howard Karras
