R E P O R T

BACKGROUND

The Transportation Committee submitted a report to Council, at the regular Council meeting held 1988 December 12, prepared in response to Council's request for a fundamental review of the Gilley Alternate. The Transportation Committee recommended to Council as follows:

- "1. THAT the 5 Year Capital Budget accord high priority to Marine Way/10th Avenue Connector construction coupled with the Griffiths/19th/20th Street improvement in order to allow for the early declassification of Gilley Avenue as a truck route.
2. THAT the construction of the northern portion of the Gilley Alternate that crosses the Byrne Creek Ravine and the B.C. Hydro Right-of-Way and links to Edmonds Street be deleted from the Municipality's 5 Year Capital Budget.
3. THAT authority be given to pursue upgrading of Stride Avenue southwest of the 19th Street route in recognition of its function as the major link between Edmonds Town Centre South and the wider Community Plan area and a primary gateway to Edmonds Town Centre South."

Arising out of Council's consideration of the three recommendations, the following motion was adopted:

"THAT the recommendations of the Transportation Committee be TABLED to the 1989 January 09 regular Council Meeting, and further, that the Transportation Committee be instructed to hold a Public Meeting in the Municipal Hall during the first week of 1989 January to receive public input into the Transportation Committee report, and further, that the Transportation Committee provide a report to Council on 1989 January 09 based on the results of the Public Meeting."
