R E P O R T

The Environment and Waste Management Committee initiated a discussion of tree management and its relationship to the environment and views within the Municipality at its meeting of 1990 September 11. The Committee Chairman has received correspondence concerning Burnaby's tree policy from the Northwest Capitol Hill Neighbourhood Association, and the association has accepted an invitation to appear as a delegation at the Committee's next meeting on 1990 October 09.

As the Environment and Waste Management Committee is currently addressing the issues raised by the Northeast Capitol Hill Homeowners Association, it is recommended that their correspondence and concerns be referred to the Committee for their consideration and subsequent report to Council.
