

TO: MUNICIPAL MANAGER 1991 DECEMBER 09
FROM: DIRECTOR FINANCE
SUBJECT: TENDER FOR FIVE ONLY 38 CUBIC YARD RECYCLING COLLECTION VEHICLES
PURPOSE: To obtain approval to purchase five 38 cubic yard recycling collection vehicles.

=====

RECOMMENDATION

1. THAT, subject to Council giving final adoption to the bylaw which provides funding for this purchase, a purchase order be issued to the lowest bidder, Trican Machinery Ltd., for the supply and delivery of five only 1992 White/GMC WXL42 truck chassis complete with Labrie Model TS-1000 recycling collection bodies for a total cost of \$631,638.22.

REPORT

Two firms submitted a total of four tenders for the supply and delivery of five recycling collection vehicles. These tenders were received by the closing time of 3:00 p.m. Tuesday, 1991 November 12 and were opened by municipal staff in the presence of representatives of the firms bidding. A tabulation of the tenders received is attached (Attachment A).

The units to be purchased are new additions to the Engineering fleet and are required to provide recycling collection services for multi-family dwellings throughout the municipality. The implementation of the multi-family dwelling recycling collection program was approved by Council on 1991 September 16.

Nine units of the same make and model as the recommended units have been in service with the Corporation for approximately one year. They have established a very good track record for performance and reliability. The 1992 models are expected to perform as well or better.

Capital Reserve Expenditure Bylaw No. 9682 which provides funding for this purchase appears elsewhere on this agenda for final adoption. The award of this tender is subject to adoption of this bylaw.

The Director Engineering concurs with the above recommendation.

Rick Earle
