MANAGER'S REPORT NO.	29
COUNCIL MEETING	91/05/06

TO: MUNICIPAL MANAGER

1991 April 29

FROM: ACTING DIRECTOR FINANCE

SUBJECT: CONTRACT NO. 9114 - TRAFFIC SIGNALS VARIOUS LOCATIONS

PURPOSE: To obtain approval to award a contract for the supply and installation of traffic signals at various locations in Burnaby.

=====

RECOMMENDATION:

1. THAT a contract be awarded to the lowest bidder, Bay Hill Contracting Ltd. for the supply and installation of traffic signals at various locations in Burnaby for a total cost of \$271,639.00.

REPORT

Three tenders for the supply and installation of traffic signals at various locations were received by the closing time of 3:00 p.m. Wednesday, 1991 April 17 and were opened by municipal staff in the presence of representatives of the firms bidding. A tabulation of the tenders received is attached (Attachment A).

The work of the contract involves the supply and installation of all labour, materials, plant, tools and equipment (except for six controllers and two signal poles to be supplied by the Corporation) related to the installation of traffic signals at:

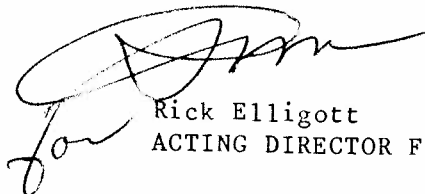

- Maywood Street and Willingdon Avenue
- Cariboo Road and Government Street
- Eastlake Drive and Production Way
- Sixth Street and Sixteenth Avenue
- MacPherson Avenue and Imperial Street
- Sixth Street and Fourteenth Avenue (pedestrian signal only)

The Director Engineering's estimate for this work is \$315,000.

The recommended bidder, Bay Hill Contracting Ltd., has been in business in the lower mainland for approximately seven years. Although Bay Hill has never performed work directly under contract with the Corporation, they have recently installed several traffic signals in Burnaby for developers. Our consultant, R. P. Shaflik Engineering Ltd., has inspected their work and found it to be excellent.

The funds for this work are provided for in the 1991-1995 Capital Budget under Traffic Management. Appearing elsewhere on this agenda is the Director Engineering's report requesting approval for these expenditures prior to adoption of the 1991-1995 Capital Budget.

The Director Engineering and our consultant, R. P. Shaflik Engineering Ltd., concur with the above recommendation.

Rick Elligott
