

TO: ACTING MUNICIPAL MANAGER

1992 May 26

FROM: DIRECTOR FINANCE

SUBJECT: CONTRACT NO. 9211 - SUPPLY & INSTALLATION OF MACHINE
LAID ASPHALTIC CONCRETE AND ASPHALTIC CONCRETE GRINDING

PURPOSE: To obtain approval to award a contract for the rehabilitation
of various roads throughout Burnaby.

=====

RECOMMENDATION:

1. THAT a contract be awarded to the lowest bidder, Jack Cewe Ltd., for the rehabilitation of various roads throughout Burnaby for a total cost of \$1,023,473.80 with final payment based on actual quantities and unit prices tendered.

REPORT

Five tenders for this work were received by the closing time of 3:00 p.m. Monday, 1992 May 25 and were opened by municipal staff in the presence of representatives of the firms bidding. A tabulation of the tenders received is attached (Attachment A).

The work of this contract involves the supply of all labour, materials, tools, plant and equipment required for the grinding of approximately 70,000 square metres of existing asphaltic concrete, and the laying of approximately 17,000 tonnes of asphaltic concrete on various roads throughout Burnaby.

The Director Engineering's estimate for this work is \$1,019,732.

The recommended bidder, Jack Cewe Ltd., has been in business in the lower mainland for approximately 36 years. Since 1977, Jack Cewe Ltd. has performed the work of numerous contracts with the Corporation including overlay and local improvement programs as well as several previous asphalt and gravel supply contracts. In addition, Jack Cewe Ltd. was recently awarded Contract No. 9209 - Griffiths Connector Phase I which included work of a similar nature. Based on their past performance, the Director Engineering is satisfied that they have the necessary experience and resources to complete the work of this contract.

This project is included in the 1992-1996 Capital Budget under Street and Lane Rehabilitation. Appearing elsewhere on this agenda is a report recommending approval of a work order which authorizes the expenditure of funds for this work.

The Director Engineering concurs with the above recommendation.
