Re: Request for filing of interventions  
to B.C. Utilities Commission regarding  
the Federal export permit and provincial  
energy removal certificate renewal  
applications by B.C. Hydro and its  
subsidiary, POWEREX

A letter dated 1992 February 28 was received from the Greater Vancouver Regional District requesting Council participate in the filing of interventions into the Federal Export Permit and Provincial Energy Removal Certificate renewal application by B.C. Hydro and its subsidiary, Powerex.

Item No. 11, Acting Municipal Manager's Report No. 20, 1992 March 23 was brought forward for consideration at this time.

11. Letter from GVRD, 4330 Kingsway, Burnaby, B.C.  
B.C. Hydro and Power Authority - Burrard Thermal Generating Plant, Ioco, B.C. Renewal Application for Provincial Energy Removal Certificate and Federal Export Permit

The Acting Municipal Manager submitted a report from the Acting Chief Public Health Inspector advising Council of the renewal application filed by B.C. Hydro and Power Authority and B.C. Power Exchange Corporation for an Energy Removal Certificate and Federal Export Permit which would result in increased operation of the Burrard Thermal Generating Plant and an increase in emissions of oxides of nitrogen. The purpose of the application is to allow for the removal of electricity to the United States and Alberta on a short-term basis for a period of six years beginning from 1991 October 01 to 1997 September 07.

The Greater Vancouver Regional District has filed an intervention with B.C. Utilities Commission regarding the renewal application which would result in increased operation of the Burrard Thermal Generating Plant and a resultant doubling of emissions of oxides of nitrogen from the plant. This is in direct conflict with the Canadian Council Ministers of Environment "Management Plan for Oxides of Nitrogen and Volatile Organics" endorsed by Canada's Green Plan, which calls for a 40% reduction in oxides of nitrogen emissions, and the G.V.R.D. Board of Director's goal of reducing the oxides of nitrogen emission by 50%. The G.V.R.D. intervention was filed on the basis of this conflict.

The Acting Municipal Manager recommended:

1. THAT Council support filing of an intervention with British Columbia Utilities Commission (B.C.U.C.) on Renewal Applications filed by B.C. Hydro and Power Authority and B.C. Power Exchange Corporation for Provincial Energy Removal Certificate and Federal Export Permit which results in increased operation of the Burrard Thermal Generating Plant and an increase in emissions of oxides of nitrogen.
2. THAT G.V.R.D. direct further stringent emission requirements upon renewal of G.V.R.D. Air Emission Permit VA-330 expiring on 1992 April for the Burrard Thermal Generating Plant.
3. THAT a copy of this report be forwarded to Mr. Bob Smith, Administrator, Air Quality Control, Air Quality and Source Control Development, G.V.R.D., 4330 Kingsway, Burnaby, B.C., V5H 4G8.

MOVED BY ALDERMAN RANKIN:

SECONDED BY ALDERMAN DRUMMOND:

"THAT the recommendations of the Acting Municipal Manager be adopted."

Re: After Dark Bus stops:  
Correspondence from Township of  
Langley

---

The Traffic and Transportation Committee submitted a report prepared in response to a request from the Township of Langley for support of an application to B.C. Transit to initiate an after dark bus stopping policy. An "after dark" bus stopping policy reduces walking distances to a destination and therefore offers increased safety and security for transit users in the evening hours. While it is recognized that application of the policy in Burnaby may result in some minor disruption to traffic flow due to buses stopping in travel lanes, the application of the after dark policy is supportable. The Traffic and Transportation Committee therefore recommend that Council request B.C. Transit to implement the policy as soon as practicable.

The Traffic and Transportation Committee recommended:

1. THAT Council request B.C. Transit implement an "After Dark" bus stopping policy to apply after the P.M. peak period as outlined in this report.
2. THAT a copy of this report be forwarded to Mayor Dykeman, Chairman, Vancouver Regional Transit Commission and to the Municipal Clerk, Corporation of the Township of Langley.
