

ITEM 5  
MANAGER'S REPORT NO. 38  
COUNCIL MEETING 92/05/25

TO: ACTING MUNICIPAL MANAGER 1992 May 20  
FROM: DIRECTOR PLANNING & BUILDING Our File: 17.823  
X Ref: 15.750

SUBJECT: SOCIAL PLANNING COMPONENT OF  
EDMONDS INFRASTRUCTURE STUDY

PURPOSE: To inform Council of a proposed community consultation process to identify social planning concerns and optional strategies for the Edmonds area.

RECOMMENDATIONS:

1. THAT this report be received for information purposes.

R E P O R T

At its meeting of 1992 March 02, Council tabled a recommendation that staff be authorized to pursue a review of certain aspects of the currently adopted plans for the Edmonds Town Centre area. The recommendation remains tabled.

The March 02 report indicated that given the rate of development in the Edmonds Town Centre, staff have initiated a study to identify timing and implementation strategies for required improvements to the area's infrastructure. The area under review is shown in Sketch 1, attached. Services to be examined in the infrastructure study include transportation, utilities, public safety, social services, schools, recreation, and parks. The infrastructure study is separate from, although related to, the proposed review of the Edmonds Town Centre plans.

To prepare the social planning component of the infrastructure study, staff intend to hold one or more meetings with community leaders in Edmonds. Attendance will be on an invitational basis. The aim of the meetings will be to identify social planning concerns and optional strategies for the area. The process will be similar to that of the original Metrotown social planning consultation meetings, held in 1987. Once the Edmonds social planning consultation process has concluded, staff will be incorporating the outcomes within the infrastructure study for subsequent review by the Community Issues & Social Planning Committee and Council.

This is for the information of Council.
