b) Cont.

The structure on the property, a one storey single family dwelling from the 1940's, is in extremely poor condition and is now vacant. It requires extensive repairs including replacement of roof, heating, and installation of fencing for safety. An inspection report was prepared which estimated major repair items. This information is available in the Engineering Department.

Based on the rental analysis incorporating the inspection report, the Finance Department has advised that it is financially imprudent to repair and rent the property.

We recommend that the structures be removed and/or demolished.

c) 7963 Graham Avenue (Figure 3)
Lot 1, Blk. E, D.L. 28, Plan 10397, Group 1

The subject property, including a vacant one storey, two bedroom single family dwelling in fair condition, was acquired this year (under vacant possession terms) for inclusion in Graham Park.

The Parks Department advises that although they have no current plans to develop the park, the conversion of the lot to casual park open space is considered desirable as it will provide more room for casual play.

The Parks Department has recommended removal/demolition so they may proceed.
