Additional Information:

Council has previously approved the services of a consultant who has prepared a comprehensive outdoor signage plan for the civic, justice, and cultural complex areas. The consultant has developed and finalized drawings and specifications, in association with a joint staff steering committee and representatives of the local user groups. The proposed signage plan will provide a clear signage system for both vehicular and pedestrian visitors and establish a presence and identity for the area.

The design plan is now complete and ready for implementation. Funds are required for the construction phase which includes supply and installation of the signage and associated landscaping. Funding is available under the 1991-1995 Capital Budget.
