"THAT the delegations be heard."

CARRIED UNANIMOUSLY

1. Mr. Nathan Davidowicz, 2924 41st Avenue, Vancouver, B.C. appeared before Council to discuss the rerouting of the #110 bus, the 1993/94 Annual Service Plan and various traffic matters.

With respect to the rerouting of the #110 bus, the speaker feels that area residents should be given an opportunity to respond to the proposed rerouting before any decisions are made, not after it receives Council approval. Mr. Davidowicz feels that the rerouting is not a temporary measure and may be in place for several years before road improvements are completed. In addition, the rerouting should not be in effect for a 24 hour day, because during late night hours this route would be very disruptive to area residents.

Mr. Davidowicz then addressed various routing problems in the Metrotown area and recommended a complete review of routes rather than a piecemeal approach, including the potential for a free service in and around Metrotown, paid for by local merchants.

In addressing the 1993/94 Annual Service Plan proposal, Mr. Davidowicz noted that plans contained in the 1992/93 plan have not yet been carried out in Burnaby. The speaker feels that Burnaby should be addressing many more issues affecting the community within the report to the Transit Commission.

Councillor Corrigan retired from the Council Chamber at 7:25 p.m.

Councillor Lawson retired from the Council Chamber at 7:25 p.m.

Councillor Corrigan returned to the Council Chamber at 7:35 p.m. and took his place at the Council table.

Councillor Rankin retired from the Council Chamber at 7:40 p.m.

2. Mr. Douglas Oldham, Burnaby Select Taxi, 6081 Hastings Street, Burnaby, B.C. appeared before Council to discuss the issue of taxi licences in Burnaby.

Mr. Oldham noted that taxis are an integral part of the Lower Mainland transportation system. The speaker provided an historical overview of the issuance of taxi licences in Burnaby since 1985.

The speaker discussed the formulation of a taxi licence policy in Burnaby and stated that for economic and safety reasons Burnaby Select Taxi needs additional taxi licences. Mr. Oldham then requested the City undertake a policy review in order to determine the number of licences necessary to provide adequate service to the community.

The delegate made various suggestions and recommendations with respect to service improvements and licences including the establishment of a taxi review board to handle the issuance of licences.

From the school, the trail continues down Forest Grove Drive to Maple Grove Park, rejoins Forest Grove Drive and leaves the neighbourhood by crossing the existing pedestrian bridge along Gaglardi Way. From the overpass the trail utilizes the existing public walkway corridor down the hill into the Simon Fraser Hills neighbourhood and continues along Beaverbrook Crescent past the front of Stoney Creek School and Stoney Creek Park to Beaverbrook Drive. 1. Request to Purchase Lane Allowance for Consolidation with 7643 Cariboo Road to Provide Vehicular Access to Fifteenth Avenue

The following item was tabled at the regular Council meeting held on 1992 October 05:

2. Request to Purchase Lane Allowance For Consolidation with 7643 Cariboo Road to Provide Vehicular Access to Fifteenth Avenue

The City Manager submitted a report from Acting Director Planning and Building prepared in response to a request to purchase a lane allowance for consolidation with 7643 Cariboo Road. Staff advise that the proposal to gain vehicular access to 15th Avenue from the Cariboo Road property is contrary to the 1986 Community Plan and would conflict with pedestrian access from the south side of 15th Avenue and the subject lane to the overpass. Elimination of the lane allowance would remove direct access to the overpass for the majority of the Monroe and Armstrong Avenue residents. As a result, staff do not support the request to purchase the lane allowance.

The City Manager recommended:

1. THAT Council advise the applicant that the subject lane allowance is required for pedestrian access to the Cariboo Road overpass and is, therefore, not available for sale.

2. Traffic and Transportation Committee  
(Transportation and Transit Division)  
Re: Rerouting of Bus #110

The following item was tabled at the regular Council meeting held on 1992 November 02:

1. Traffic and Transportation Committee  
(Transportation and Transit Division)  
Re: Rerouting of Bus #110

The Traffic and Transportation Committee submitted a report prepared in response to B.C. Transit's proposal to re-route bus #110 to avoid conflicts and delays at the intersection of Beresford Street and Willingdon Avenue. The report assesses a number of options to address the issue including the connection of Central Boulevard between Wilson and Willingdon; a short-term re-routing of bus #110; signalization of Beresford and Willingdon and a major re-routing along Grange to Willingdon. Following consideration of these options, the minor re-routing of the #110 service is deemed to be the most attractive solution.

The Traffic and Transportation Committee recommended:

1. THAT Council approve in principle the re-routing of Bus #110, as shown in Figure 1, subject to B.C. Transit notifying residents of Wilson Avenue and Kemp Street.

3. Traffic and Transportation Committee  
(Transportation and Transit Division)  
Re: 1993/94 Annual Service Plan  
Discussion Paper

The following item was tabled at the regular Council Meeting held on 1992 November 02:

2. Traffic and Transportation Committee  
(Transportation and Transit Division)  
Re: 1993/94 Annual Service Plan  
Discussion Paper

The Traffic and Transportation Committee submitted a report prepared in response to the 1993/94 Annual Service Plan Discussion Paper. The report provides an assessment of the possible implications of the discussion paper for the City of Burnaby. However, as the discussion paper is essentially a policy document lacking specific proposal for service changes, the impact of these policies on transit services in Burnaby cannot be determined until further developed in an Annual Service Plan. The discussion paper indicates that changes to transit services will be based on a critical review of poor performing routes, a re-assessment of service levels during low demand times, a re-examination of transit and transportation options in the suburbs and increasing the operating speed and efficiency of transit through application of transit priority measures.

The Traffic and Transportation Committee recommended:

1. THAT a copy of this report be forwarded to Mayor L. Traboulay, Chairman, Vancouver Regional Transit Commission.

MOVED BY COUNCILLOR YOUNG:

4. 1993 Animal Control Fees and Bylaw Amendments

The following item was tabled at the regular Council Meeting held on 1992 November 02:

15. 1993 Animal Control Fees and Bylaw Amendments

The City Manager submitted a report from the Director Finance requesting Council's approval of 1993 fees and a bylaw amendment to regulate the keeping of snakes and rodents. The proposed fee amendments provide a 2% inflationary increase for licences for unaltered dogs, off-leash violation tickets, impounding, daily boarding, cremation and disposal fees. Staff are also recommending an amendment to the bylaw to allow not more than two snakes to be kept in a dwelling unit and not more than four rodents to be kept in the same dwelling unit.

The City Manager recommended:

1. THAT the Burnaby Animal Control Bylaw 1991, No. 9609 be amended to provide for the fees outlined in Schedule A of this report effective 1993 January 01; and
2. THAT the Burnaby Animal Control Bylaw 1991, No. 9609 be amended to regulate the keeping of snakes and rodents.

MOVED BY COUNCILLOR LAWSON:  
SECONDED BY COUNCILLOR CORRIGAN:

INQUIRIES

Councillor Lawson

In referring to an article in the Burnaby News, Councillor Lawson inquired as to whether or not Mayor Copeland was considering a new system for dealing with proposals for large development projects within the city.

Mayor Copeland responded by advising that he would like major development projects to be reviewed by Council when they first come before the Planning Department for consideration. Mayor Copeland advised that he was not anticipating changing municipal policy, but was trying to emphasize the need for Council to be aware of major development proposals within the community at the earliest stages.
