Re: Four Way Stop at Intersection of Graham
Avenue and 7th Street

RECOMMENDATION:

1. THAT a four way stop be installed on an interim basis at the intersection of Graham Avenue and 7th Street.

R E P O R T

The Traffic and Transportation Committee (Transportation and Transit Division), during the New Business portion of the meeting held on 1993 November 10, discussed the need for a four way stop at the intersection of Graham Avenue and 7th Street.

The Committee noted that the installation of a delta island at 6th Street and 16th Avenue has redirected traffic onto Graham Avenue. In order to reduce the speed of traffic on Graham Avenue, the Committee requested that a four way stop be installed on an interim basis at the Graham Avenue/7th Street intersection.
