REPORT

60-13-010 3 Replacement Truck Hoists

Charge: 1993 Capital Budget
Service Centre

\$174,000

Additional Information: There are three truck hoists in the service centre garage that were installed in the 1950's and 1960's. The hoist structures are used to service the City's vehicles. In 1992, temporary remedial work was performed on the superstructure to maintain the hoists in an interim safe operating condition. However, to ensure a continued safe working environment in the Garage, funding allocation of \$174,000 was provided as a Contribution to Capital in the 1992 Recast Operating Budget for replacements in early 1993. This expenditure will be included in the 1993 Annual Capital Budget. The design of the new hoists will be such that the structures can be removed and relocated when a new works yard site is developed.
