RE : EDGAR HOUSE/DEER LAKE PARK - FILMING ON LOCATION

PURPOSE : To inform Council of filming on location at Edgar House/Deer Lake Park from August through October 1995.

---

**RECOMMENDATION:**

1. THAT this report be received for information purposes.

**REPORT**

Filmline International Highlander Inc. will be filming portions of the television series "Highlander" at the City owned residence known as the Edgar House located at 6450 Deer Lake Avenue from August through October 1995. Filming will take place for several days approximately every two to three weeks during this period as a recurring setting for the main character. From time to time there may be additional filming at the east end of Deer Lake Park in the vicinity of the beach and parking lot.

During the filming periods, the majority of the film unity and crew vehicles will be parked in a portion of the Deer Lake Park parking lot and along a portion of the north side of Deer Lake Drive before it narrows to a private road. A minimal number of vehicles will be parked at the Edgar House and most film crew personnel will be shuttled from the parking lot at Deer Lake Park. All of the residents in the vicinity of the effected area have been notified in writing of the filming by the film company.

The film company will be providing appropriate physical upgrading of the residence and grounds that is consistent with the City's restoration program for the Edgar House.

At its meeting of 1995 August 02, the Parks and Recreation Commission by motion recommended that Council receive this report as information.
