REPORT

60-30-094 Sanitary Sewer Rehabilitation (South Burnaby Area)

Charge: 1995 Capital Budget
Sanitary Sewer Utility \$150,000

Additional Information: The City's ongoing program aimed at reducing infiltration and inflow in the sanitary sewer system has identified specific sections of the sewer system in the south Burnaby area requiring immediate attention. This work order provides funding for a rehabilitation program that includes relining sewer pipes, eliminating cross connections and grouting manholes and pipe joints. Sufficient General Revenue funds are available in the Sanitary Sewer Utility and although these expenditures are not included in the 1995 Capital Program, appropriate adjustments will be made to ensure the approved capital spending limit is not exceeded.
