

ITEM	08
MANAGER'S REPORT #	11
COUNCIL MEETING	96/04/15

TO: CITY MANAGER 1996 APRIL 10

FROM: DIRECTOR FINANCE

SUBJECT: CONTRACT NO. 9602 - ROYAL OAK STORM SEWER EXTENSION

PURPOSE: To obtain approval to award a contract for the construction of storm sewers and related works.

RECOMMENDATION:

1. THAT a contract be awarded to the lowest bidder, Sandpiper Contracting Ltd., for the extension of storm sewers and related works on Royal Oak Avenue between Marine Drive and Marine Way for a total cost of \$325,601.43 with final payment based on actual quantities and unit prices tendered.

REPORT

Five tenders for this contract were received by the closing time of 3:00 p.m., Thursday, 1996 March 28 and were opened by staff in the presence of representatives of the firms bidding. A tabulation of the tenders received is attached (Attachment A).

The work of this contract involves the supply of all labour, materials, tools, plant and equipment required for the construction of storm sewers and related works.

The Director Engineering's estimate for this work is \$321,500.00

The recommended bidder, Sandpiper Contracting Ltd., has satisfactorily completed several construction contracts for the City during the past five years. Based on their past performance, the Director Engineering is satisfied that they have the experience and resources to complete the work of this contract.

Sufficient General Revenue funds are available and this project is included under the 1996 Storm Sewer Extension component of the 1996-2000 Annual Capital Program, however the expenditure exceeds the budgeted amount. Other project expenditures will be reduced to ensure the capital spending limit is not exceeded. Appearing elsewhere on this agenda is a report recommending approval of a work order for this project.

The Director Engineering and our consultant, Klohn-Crippen Consultants Ltd., concur with the above recommendation.

Rick Earle
