Dear Mayor Copeland:

Due to a work relocation to BC Transit's Head Office I must submit my resignation as a member of the Burnaby Traffic and Transportation Committee on conclusion of the December 1995 meeting.

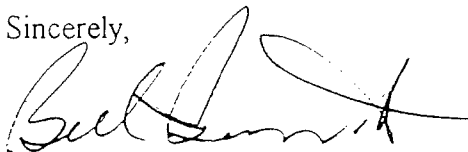

Over the years there have been many changes and challenges in dealing with the day to day safety issues in and around the City. Burnaby is unique in that it has community citizens and corporate representation on its committees.

I would further thank both you and Councilor Jim Young for allowing me to represent the City at the Western Canada Traffic Association Conferences over the years. I feel it has been a benefit to both the City and myself.

With your approval my replacement will be Mr. Norm Smith, Superintendent Burnaby Transit Centre. Norm will bring to the committee a strong safety back ground, having served as Chairperson of Oakridge Operations and Burnaby Operations Employee/Management Safety Committees. I would like to introduce Mr. Smith at the December 1995 meeting.

I have enjoyed my tenure on this committee and have appreciated the opportunity to make a contribution to the City of Burnaby. Thank you for the experience.

Sincerely,

W.B (Bill) Bennett
