60-21-120 Water Main Renewals (1996 Road Improvement Program)

Charge: 1996 Capital Budget
Mains, Pumping Stations, etc \$1,200,000

Additional Information: This work Order provides funding for the replacement of aging water mains on streets that form part of the annual pavement rehabilitation program. An item recommending award of Contract #9601 that pertains to Phase I of the renewal program appears elsewhere on Council's agenda. Phase II of this renewal program will be tendered during March, 1996. Construction of the replacement mains is coordinated with roadworks to reduce surface restoration costs and minimize potential for breaks after the new pavement is in place. Sufficient General Revenue funds are available and these expenditures are included in the Water Utility component of the 1996 Capital Program.
