

TO: CITY MANAGER 1997 May 6

FROM: DIRECTOR FINANCE

SUBJECT: CONTRACT NO. 9706 - SUPPLY AND INSTALLATION OF MACHINE LAID ASPHALTIC CONCRETE AND ASPHALTIC CONCRETE GRINDING

PURPOSE: To obtain approval to award a contract for machine laid asphalt and asphalt grinding.

RECOMMENDATION:

1. THAT a contract be awarded to the lowest acceptable bidder, Jack Cewe Ltd., for machine laid asphalt and asphalt grinding at various locations throughout Burnaby, for a total cost of \$1,585,822.65 with final payment based on actual quantities and unit prices tendered.

REPORT

Six tenders for this contract were received by the closing time of 3:00 p.m. Monday, 1997 April 28 and were opened by staff in the presence of representatives of the firms bidding. A tabulation of the tenders received is attached (Attachment A).

The work of this contract involves the supply of all labour, materials, tools, plant and equipment required for the grinding of approximately 77,000 square metres of existing asphalt, the laying of approximately 20,000 tonnes of asphalt and other miscellaneous work, at various locations throughout Burnaby.

The Director Engineering's estimate for this work is \$1,644,000.

The lowest bidder, B.A. Blacktop Ltd., having discovered a significant error in the preparation of their tender, has requested they be allowed to withdraw their bid. B.A. Blacktop has issued to the City a cheque in an amount equal to difference between their tender total and that of the recommended bidder. In light of the zero net effect to the City, Staff have permitted B.A. Blacktop to withdraw their tender.

The recommended bidder, Jack Cewe Ltd., has satisfactorily completed numerous contracts for the City in the past. Based on their past performance, the Director Engineering is satisfied that they have the experience and resources to complete the work of this contract.

- 2 -

Sufficient General Revenue and Capital Reserve Funds are available and this project is included under various 1997 Annual Operating and Capital Budget accounts.

The Director Engineering concurs with the above recommendation.
