**60-21-128 Watermains Renewal (1998 Program- Phase III)**

**Charge:** 1998 Annual Capital Budget  
Watermains, pumping stations, etc \$1.8 Million

**Additional Information:** This work order provides funding for the replacement of aging Watermains on streets that form part of the annual pavement rehabilitation program. An item recommending award of Contract 9811 that pertains to Phase III of the renewal program appears elsewhere on Council's Agenda. Total cost, including additional construction work by City forces, is estimated at \$1.8 million. Construction of the replacement mains is coordinated with the roadworks to reduce surface restoration costs and minimize potential for breaks after the new pavement is in place. Sufficient General Revenue funds are available and these expenditures are included in the Water Utility component of the 1998 - 2002 Capital Program.
