

BURNABY BICYCLE ADVISORY COMMITTEE

*HIS WORSHIP, THE MAYOR
AND COUNCILLORS*

RE: PAVEMENT WIDTHS DESIGNED TO ACCOMMODATE CYCLISTS

The Bicycle Advisory Committee advises that since the adoption of the Transportation Plan which created the Cycle Road designation, no Cycle Roads have been developed to permanent standard, but several Cycle Roads have undergone rehabilitation of interim pavements. In the opinion of the Bicycle Advisory Committee, the proposal to rehabilitate interim pavements to a standard designed to accommodate cyclists complements Burnaby's Transportation Plan.

RECOMMENDATIONS:

1. **THAT** Council support the priority system used to determine where pavement widths designed to accommodate cyclists should be included in pavement rehabilitation projects be:
 - a) designated cycle roads
 - b) roads identified by the Bicycle Advisory Committee as important to cyclists
 - c) other collector and arterial roadways
2. **THAT** Council support application to the Provincial government and any other potential funding sources to provide pavement widths designed to accommodate cyclists on collector and arterial roads, however that the provision of pavement widths designed to accommodate cyclists not be contingent on securing external funding;
3. **THAT** Council support the priority system detailed above be used to evaluate where available funding is applied to provide pavement widths designed to accommodate cyclists;
4. **THAT** given sufficient width for the accommodation of cyclists, issues relevant to curbs required to channel water in order to protect the pavement structure become irrelevant .

REPORT

The Burnaby Bicycle Advisory Committee, at its meeting held on 1998 November 26, received a memorandum from the Deputy City Clerk advising that Council, at the regular Council meeting held on 1998 October 19 received a staff report on Paved Shoulder Costs for Cycle Roads and referred same to the Bicycle Advisory Committee to review the following:

- address a priority system
- address application to Provincial government for funding
- review possibility of limiting a few of the initiatives
- review potential flooding implications
- review proposal in conjunction with overall transportation plan

Arising from discussion on the abovenoted, the Burnaby Bicycle Advisory Committee submits the recommendations for Council's consideration.

Respectfully submitted,

Councillor N. Volkow
Chair
