1. THAT the above work order as more specifically referred to in this report, be approved.

**REPORT**

**60-21- 129**

**Charge:** 1998 Annual Capital Budget  
Water Utility

\$70,000

**Additional Information:** Capital funds are required to replace approximately 65m of watermain on Kingsway from Wilson Avenue west. The existing watermain on either side is being upgraded through private development and it would be cost effective for the City to cost share with the developer in replacing this short section at a total estimated cost of \$70,000. These expenditures are not included in the 1998 Capital Program. However, sufficient General Revenue funds are available and appropriate adjustments will be made to ensure the capital spending limit is not exceeded.
