REPORT

The Municipal Act of B.C. requires that Council undertake to do certain things in association with local government election. Specifically, Council is required to enact bylaws to establish Advance Voting Opportunities, Special Voting Opportunities and to adopt a resolution to enter into an agreement with School District No. 41 to recoup costs for conducting the election of school trustees.

1.0 ADVANCE VOTING OPPORTUNITIES

Council is required by the Act to provide an Advance Voting Opportunity on 1999 November 10 (10 days prior to general voting day) and on one other date to be decided by Council. In prior years, Council have also provided for advance voting opportunities on the Wednesday and Thursday immediately prior to general voting day as statistically these days have provided the highest percentage of voter turnout for advance voting. In keeping with that tradition, staff are recommending Advance Voting Opportunities be held on November 10, 12, 17 and 18. Voting will be held on the first floor at City Hall from 8:00 a.m. to 8:00 p.m. on these dates.

In previous years Council have established Special Voting Opportunities to allow qualified individuals residing in nursing or seniors homes or who are hospital patients on voting day, to vote. We have also permitted residents to vote outside their established voting division provided they make application to do so prior to the close of the list of electors. This accommodates those residents who are affected by past voting division boundary changes but who wish to continue voting at their previous voting place. Staff are recommending Council continue with past practice in providing these opportunities to Burnaby voters.

3.0 AGREEMENT WITH SCHOOL DISTRICT NO. 41

In 1993 the Municipal Act of B.C. was amended to allow municipalities to cost share with school districts for providing election services for the election of school trustees. Although Burnaby absorbed the cost for this service in 1993, as it had for previous elections, it was agreed at that time efforts would be made in 1996 to establish a cost-sharing arrangement with School District No. 41, for the provision of election services.

In 1996 the Ministry of Education enacted regulations which allow School Districts to pay only those portions of election costs directly attributable to the election of School Trustees. This resulted in the City receiving approximately \$6800 from School District No. 41 for costs incurred in the 1996 election.

Discussions between the City and School District No. 41 regarding 1999 Election expenses have resulted in a recommendation to again enter into an agreement to apportion costs to a maximum of \$10,000 to the School District for conducting the 1999 election of school trustees.

The foregoing is presented for the consideration of Council.

Respectfully submitted,

D.R. Comis
