REPORT

The 2000 Annual Capital Budget includes an amount of \$50,000 for a review of the pavement condition on Norland Avenue, Sprott to Douglas, that has settlement problems, due primarily to the presence of weak sub-surface soil conditions. Engineering services are required to investigate and design the most cost effective method of rehabilitating the pavement. Sufficient General Revenue funds are available and these expenditures are included under the Special Roads component of the 2000 - 2004 Annual Capital Program.
