SUBJECT: LIGHTING IN THE LANE BEHIND 3954 VENABLES STREET
PURPOSE: To Respond to a Request for Lighting in the Lane Behind 3954 Venables Street

RECOMMENDATION:

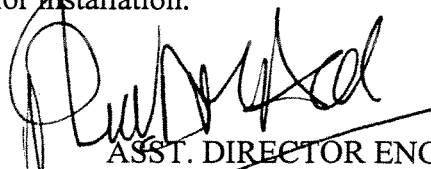

1. THAT the Committee endorse the installation of one street light in the lane behind 3954 Venables Street
2. THAT Mr Peter DeMarco 3954 Venables Street Burnaby BC V5C 2Z4 receive a copy of this report

REPORT

Mr Peter DeMarco of 3954 Venables Street has submitted a letter and petition (attachment 1) signed by himself and his neighbours requesting the installation of lighting in the lane adjacent their residences. A petition with signatures of 2/3 of the affected properties must be submitted to the Engineering Department before the request can be forwarded to the Committee and subsequently BC Hydro. This requirement has been met.

Staff have viewed the laneway and have found that adequate poles are available for light installation. Further, we would suggest that one light be installed in an approximate midpoint location, which would be in keeping with spacing applied in other instances where lighting has been installed in lanes of similar length.

We recommend that the Committee endorse the installation of one light in this lane with a request to subsequently be forwarded to BC Hydro for installation.

To whom it may concern,

On Behalf of the Thirty nine hundred block of Venables and Parker, we are requesting lights in the lane between the two streets. We believe that there should not be a problem to do so, because on thirty nine hundred block between Venables and Union they already have lights. The reason we are requesting lights in the lane is because there are to many home invasions, and our lane is very dark we feel by having lights in our alley we as individuals will be more safe in our own neighborhood.

Please if you have any questions or concerns, feel free to contact Peter DeMarco at 298-6660 Thank you very much for your time, and we would very much appreciate it.

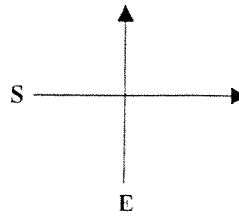

Sincerely,

A handwritten signature in cursive script that reads "Peter DeMarco".
