FILE: 10-01-12
SUBJECT: WORK ORDERS:
60-30-101 Sewer System Evaluation (Infiltration & Inflow Reduction)

PURPOSE: To obtain approval of Work Order 60-30-101

RECOMMENDATION:

1. THAT the above work order as more specifically referred to in this report, be approved.

REPORT

60-30-101 Sewer System Evaluation (Infiltration & Inflow Reduction)

Charge: 2001 Provisional Capital Budget
Sanitary Extensions \$350,000

Additional Information: The City has an ongoing program to reduce infiltration and inflow in the sanitary sewer system. Reduction of infiltration and inflow lessens the load on sewerage treatment plants and is a critical element in the Regional Liquid Waste Management Plan. The proposed program includes flow monitoring and video camera inspection to identify specific areas of the sewer network requiring rehabilitation. Sufficient General Revenue funds are available and these expenditures are included in the Sanitary Sewer Utility component of the 2001 - 2005 Provisional Capital Program.
